

# SLIPWAY INFRASTRUCTURE

PROPOSED DEVELOPMENT OF THE GRANGER BAY PRECINCT  
AND LAND RECLAMATION AT THE V&A WATERFRONT

A walk-on jetty will be provided adjacent to the slipway to allow users to temporarily moor up against while launching or retrieving their boat. The slipway jetty is proposed to be located east of the slipway, oriented in alignment with the prevailing wave direction.

The slipway is proposed to have a 1:8 slope over most of its length, levelling off to 1:12 near the top. The new slipway will extend further than the existing slipway.

10 m

Proposed slipway
